

KKSP Precision Machining LLC has open capacity on Acme Gridley and New Britain machines

INDUSTRIES WE SERVE INCLUDE:

- Plumbing
- Hydraulic
- Electrical
- Automotive
- Refrigeration
- Appliance
- Gas
- Power Tool
- Ordinance

If you have requirements for larger diameter screw machine components in the size range of 1 in. diameter up to 4 in., we have machines and time available.

Lead times for these size parts are limited only by the time it takes to acquire the tooling to produce your component.

Materials would include free machining Brass and Steel.

All facilities are TS16949 and ISO 9001 and ISO 14001 certified.

Contact your representative to discuss the possibilities.

For more information please visit www.kksp.com or contact your Sales Representative to discuss how KKSP Precision Machining can meet your large diameter screw product needs.
